About the resource:

This resource was created to help busy parents, teachers, and Sunday School leaders teach little children important stories and concepts from the Bible in an age-appropriate and accurate way.

On the lesson plan pages you'll find the objective, the Bible verse I have chosen for the unit, the materials you'll need, and then detailed ideas to simplify your planning and save you time! There are a lot of games, crafts, and activities included to give you options. You know your kids best. You don't need to do everything; instead pick and choose the activities that will meet their needs and engage your learners. Some teachers pick a couple activities to do in one morning while others spend a whole week on this resource and spread the activities over several days.
